Fabric Shading Effect

Blackout

Room-Darkening

Light-Filtering

Sheers

Grommet: Curtains with grommets have metal rings sewn into the top. The curtain rod goes through these grommets. This style is modern and allows for easy opening and closing of the curtains.

PINCH PLEATED

Pinch Pleated: This is a more formal style where the fabric is pleated and held together by hooks or clips. It gives a luxurious look and is often used in more traditional or elegant settings.

S WAVE

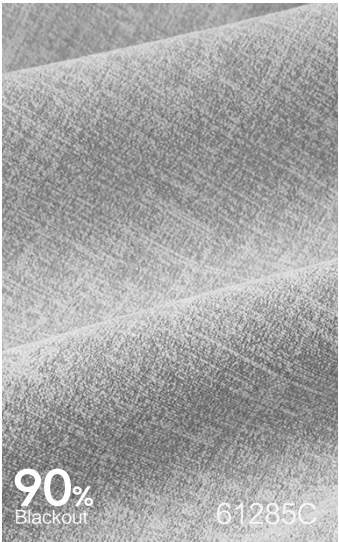

S Wave: It creates a soft and romantic look with S wave shape, which can add a dreamy and charming atmosphere to the room, especially suitable for bedrooms or spaces where a cozy and relaxing feel is wanted.
